CULTURE AND MUSIC IN KUHMO, FINLAND

Kuhmo, a town on the eastern border of Finland, 600 km North of Helsinki, is widely known for its world-class chamber music festival, the Finnish national epic Kalevala and wild brown bears. On this trip you can experience all of those along with enjoying interesting works of visual arts, history and culinary treats. The daily programme will contain one to three Kuhmo Chamber Music Festival concerts, a visit to a cultural site and a nature excursion.

Our cosy hotel is located by the shore of Lake Lammasjärvi, three kilometres from the centre of Kuhmo. The distance between town centre and the hotel will be covered daily by bicycles or by prearranged transport. The hotel has 50 individually decorated rooms, a restaurant, and terrace and sauna department.

During your staying in Kuhmo at a hotel you will be able to enjoy the beauty and delights of the Finnish summer. That will call for not only attending scheduled programme, but also spontaneous plunges into the fresh lake, sauna bathing and marvelling the white nights.
